

## **April 19 Events: 1775-2025 The Revolution Continues**

250 years ago, America fought its first battle to oppose the rule of a King. From Redcoats in 1775 to red hats in 2025, we are again facing a real threat to our democracy.

On Saturday, April 19, WE THE PEOPLE across this country will come together peacefully to once again say NO KINGS!

Join us as we stand out against this administration, which seeks to strip us of our constitutional rights and freedoms while concentrating power and wealth for themselves.

250 years ago, MA boldly led the charge to defend the will of the people, and with loud, clear voices, MA will once again send that same message.
